

Welcoming you with the smile crafted on their face!

The Corvee Foundation dedicates itself to the betterment of society. We aim to create opportunities that will empower women and break through the stereotypes.

Our free training workshops and promotions of handmade products help needy and underprivileged women earn financial freedom and confidence. Our continuous efforts to spread awareness about environmental causes lead to the maximum usage of eco-friendly products.

We strongly believe that women are the backbone of society, and we are trying to be their backbone

About Corvee

In 2014 we started our NGO activities with the urge of working towards the welfare of society. We started making handmade products which helped us to raise the funds for NGO's like NAWPC & Snehankit Association for Non-Seeing friends .

In 2016 we started conducting free training workshops for underprivileged women from rural and urban areas on mass scale which resulted in formation of our own NGO CORVEE FOUNDATION (CF)

On 14th June 2018 CF was established in Pune, Sahakarnagar, where the NGO staffs is involved in manufacturing artifacts and handicraft and along with that we also try support & promote various Handmade products made by various self-help groups and individual needy women for the efforts they take.

Inspiration

Since 2002 with individual experiences of good 15 years working in various Verticals as a Volunteer with Snehankit, NAWPC, Anandwan, Problems of ladies and their struggle in their life, motivated us to form our own NGO Corvee Foundation under which we all like minded people have designed activities and plans keeping in mind our major focus on Women Empowerment Projects.

Vision

Our vision is to create a world where every woman has the opportunity to live a life of dignity and self-sufficiency. We believe that by empowering needy women through training and education, we can create a society where women are no longer marginalized and have the skills and resources they need to thrive. We also strive to promote environmental sustainability by using eco-friendly materials in our handmade products.

Mission

- our mission is to empower underprivileged and needy women by providing free training in the art of handmade products, thereby enabling them to earn a livelihood and become financially independent.
- we also aim to spread awareness about environment-friendly causes and promote the use of sustainable materials in our products.
- through our programs, we seek to enhance the skills of women, promote their participation in economic activities, and encourage them to become agents of change in their communities.
- we are committed to providing a supportive and nurturing environment for these women to learn and grow, and stay motivated in their day to day life.
